BUSINESS ANALYST

MSBA candidate at Wake Forest University who turns messy data into decisions, with experience across business analytics, sales operations, and client-facing consulting. Builds KPI dashboards, forecasting models, and inventory systems in Python, SQL, Power BI, and Excel, and delivers analytics projects that surface trends and drive strategy for small businesses. Pairs analytical rigor with clear data-driven storytelling to translate open business questions into defined metrics, working dashboards, and recommendations that stakeholders act on.

EDUCATION

Wake Forest University School of Business, Winston-Salem, NC

Master of Science in Business Analytics, May 2027

University of Rhode Island, Kingston, RI

Bachelor of Science in Exercise Physiology & Business, Management Science & Information Systems, December 2024

Honors: Magna Cum Laude, Dean’s List, Presidential Merit Scholarship, GPA 3.68

Athletics: NCAA Division I Football walk-on

AREAS OF EXPERTISE

Analytical Problem-Solving | KPI Reporting | Data-Driven Storytelling | Forecasting | Process Improvement | Stakeholder Engagement | Cross-Functional Collaboration | Business Communication | Project Management | SQL Reporting

TECHNICAL SKILLS

Programming Languages: Python, SQL (MySQL, SQL Server, T-SQL, BigQuery)

Analytics & BI: Power BI, Tableau, Microsoft Office

Predictive Modeling & Statistical Analysis: Regression Analysis, Time Series Analysis (ARIMA, Prophet)

Data Analysis & Experimental Design: Exploratory Data Analysis (EDA), Experimental Design, A/B Testing

Data Skills: Data cleaning, data visualization, data modeling, inventory modeling, ETL

Cloud & Data Platforms: Microsoft Azure, Databricks

Platforms & Systems: Microsoft Dynamics, HubSpot, Salesforce, SAP

PROFESSIONAL EXPERIENCE

DATA COLLECTION ANALYST | **Pro Football Focus (PFF)** | Winston-Salem, NC (Remote) June 2026 - Present

- Collect and analyze NFL and NCAA game data in DAT (Data Analytics Tool), logging 340+ hours per season (240 live, 100 recorded) at 165 plays per game
- Chart play-level detail from live and recorded film, capturing formation, play type, passer and receiver IDs, yards after catch, and tackle coordinates
- Develop statistical models that feed the enterprise database used across all 30 NFL team scouting departments

BUSINESS ANALYST | **Independent Contractor** | United States (Hybrid) January 2026 - Present

- Partner with small businesses to analyze data, identify trends, and deliver insights that drive decisions
- Develop data dashboards, reports, and visualizations in Excel, Google Sheets, SQL, Python, and Power BI
- Collaborate directly with stakeholders to understand business goals, define metrics, and create customized analytics solutions

SALES OPERATIONS SPECIALIST | **Cintas Corporation** | Boston, MA (Hybrid) May 2025 - October 2025

- Administered database records, pipeline tracking, and data integrity in Dynamics 365
- Maintained customer master data, billing profiles, and contract terms in SAP
- Built Excel and Power BI dashboards and reports that tracked regional sales trends and pipeline health
- Role eliminated when the department was cut and the function was outsourced to corporate

ANALYTICAL PROJECT EXPERIENCE

SIX SIGMA GREEN BELT PROJECT | **Warehouse Operations & Logistics Optimization** 2026

Portfolio Project (GitHub) | Tools: Excel, Lean Six Sigma

- Ran DMAIC on 84 months of BTS public data, baselining DPMO, sigma level, and overall process capability
- Applied statistical process control via proportion charts and two-sample tests to isolate abnormal delays
- Ran Pareto and regression root-cause analysis, tying improvement recommendations to cost of poor quality

CERTIFICATIONS

Lean Six Sigma Green Belt | Certified Six Sigma Council 2026

- DMAIC framework, root-cause analysis, statistical thinking, and data-driven process improvement

Salesforce Administrator Certification | Salesforce 2026

- User and data management, security and access controls, workflow automation, and platform configuration
